CvSU Mission

Cavite State University shall provide excellent, equitable and relevant educational opportunities in the arts, science and technology through quality instruction and relevant research and development activities.

It shall produce professional, skilled and morally upright individuals for global competitiveness.

Assignment 1:

Game Development Proposal

A game proposal is a professional presentation that introduces your game idea, detailing its gameplay mechanics, target audience, and development strategy. It's designed to persuade publishers or investors of the game's potential and market viability.

- Please refrain from altering the text that is currently highlighted.
- You may review the criteria provided below to enhance your proposal's quality

CRITERIA

Game Concept	:	15
Uniqueness	:	5
Specific Requirements	:	5
Total	:	25

Game Development Proposal

Space Adventure

- **Game Overview**

- In Space Adventure players engage in a classic shoot 'em up experience where they navigate their spacecraft freely across both horizontal and vertical axes. The game's auto-scrolling feature sets the pace, though players have full control over their Robot movements within the scrolling environment. However, in certain platform-like levels, movement may be more restricted,
- **Game Perspective:** Side-On
- **Art Style:** Minimalist

- **Target audience:** Identify who your game is for and explain why it will capture their hearts.

- Space Adventure cater to a diverse audience, drawing in gamers seeking both fast-paced action and quick, enjoyable sessions. For those craving adrenaline-pumping thrills and intense gameplay experiences, Space adventure will deliver with their relentless pace and challenging levels. Whether dodging waves of enemies or unleashing rapid-fire attacks, players are kept on the edge of their seats in these adrenaline-fueled battles. Simultaneously, the genre's straightforward mechanics appeal to casual gamers looking for accessible gaming experiences. With simple controls and short play sessions, shoot 'em up games offer a perfect escape for those seeking quick bursts of entertainment without the need for intricate learning curves.

- **Game Mechanics:** Clarify the gameplay, focusing on mechanics and player experiences that make your game truly engaging.

- **Freely Navigate:** Players have the freedom to move their Robot both horizontally and vertically across the screen, allowing for strategic positioning to evade enemy attacks and target adversaries.

CvSU Mission

Cavite State University shall provide excellent, equitable and relevant educational opportunities in the arts, science and technology through quality instruction and relevant research and development activities.

It shall produce professional, skilled and morally upright individuals for global competitiveness.

- Power-Ups: Throughout the levels, players can collect power-ups that offer various benefits, such as extra lives or Robot weapons. These power-ups enhance the player's abilities and provide crucial advantages in combat.
- Enemy Waves: Enemies that swarm the screen, demanding swift reactions and strategic elimination of threats amidst the chaotic battlefield.
- Boss Battles As players progress through each stage, they face formidable boss enemies, presenting significant challenges. These epic encounters demand skillful maneuvering and precise shooting to win.
- **Sprites**
 - **Character:** Mechanical robot, with a simple design
 - **Enemies:** Different species of Space aliens.
 - **Environments:** Universe or galaxies.
- **Timeline:** Provide a timeline for your game's development, showing key milestones and phases.
 - **Date**
 - **Date**
